about us

We are a forth-generation family farming company. Our hearts and souls are all in farming.

It all started with one horse and a carriage line in 1925. Since then, we have continued the tradition of growing best-tasting, healthy products. Throughout the years, it has become a big farm of 3.000 acres in Manisa/Turkey. In line with this enlargement process, we also initiated our own gourmet food manufacture unit.

By growing all-natural food, we want to make people happy and healthy. Under the name of Spesya, we manufacture the crops that are grown in our own land in order to provide people with healthy and delicious food.

Today, we continue to create products that are filled with passion and make your lives more delightful and more flavorful.
